

Durham visit by scientists from the Kharkov Verkin Low Temperature Institute January 1990

This visit by Vadim Manzhelii, Michael Strzhemechny and Valery Kokshenev came immediately after the end of the 1990 Gordon Conference on the Solid Hydrogens in Oxnard, California.

Manzhelii and Strzhemechny stayed in Durham and were hosted by Horst and Ruth Mary Meyer, while Kokshenev's host was David Haase, Horst's former PhD student and Physics professor at North Carolina State University in Raleigh.

This short movie first shows Profs. Manzhelii and Strzhemechny unwrapping gifts from Kharkov in the Meyer's home, then a dinner party with Profs. Kokshenev and Haase.

Time:

00:07 left: Ruth Mary Meyer, right Vadim Manzhelii

00:10 In the middle: Michael Strzhemechny

01:33 Arrival of guests: Left David Haase, right: Valery Kokshenev

05:55 Dinner From left to right : Ruth Mary Meyer, David Haase, Valery Kokshenev

06:20 Michael Strzhemechny

06:29 Vadim Manzhelii

08:09 The end
