

Duke University  
Department of Physics

Physics 271

Spring Term 2017

## HOMEWORK 0

**Available: January 11**

**Due: January 13, by email.**

### **Problem 1: Introduce Yourself**

By Friday, please send me an email ([schol@phy.duke.edu](mailto:schol@phy.duke.edu)) introducing yourself, indicating:

- Your major or planned major (if you know it).
- Your long term professional interests (if you know them).
- Please list physics, math and electronics-related courses you've had previously, at Duke or elsewhere. Please indicate more than the course number: give the course title, textbook and brief description of course contents.
- Anything else you would like me to know about you, *e.g.* how to pronounce your name correctly, activities you are involved in, *etc.*
